## Report of the Managing Committee

The Managing Committee of the Delhi Management Association (DMA) is delighted to

This year marks the commencement of our Platinum Jubilee celebrations. From our inception in 1955 we have been dedicated to serve in the field of management. This milestone is a testament to the collective efforts of our past presidents, office bearers, the DMA secretariat, and, most importantly, our members. For nearly seven decades, DMA has been a beacon of management excellence, offering a range of training programs, seminars, conferences, publishing impactful research and white papers. Our commitment to consulting services has firmly established DMA as a leading institution in management thought leadership.

DMA has consistently aimed to inspire individuals across various sectors to achieve their highest potential. Our activities foster a collaborative environment where management practitioners can exchange insights, ideas, and experiences. Over the years, DMA has transformed into a vibrant platform that showcases best practices, not only in contemporary management techniques but also across a spectrum of diverse fields.

Last year DMA continued on its journey of revival by taking new initiatives as well as building on its existing strengths. Our prudent management has ensured that DMA is in a much stronger financial position to respond to the needs of its members.

In line with evolving trends, DMA has embraced a digital-first approach.

We have expanded our array of programs, enhanced our social media engagement, launched an updated DMA e-Newsletter, and improved connectivity with our members. Our new website, featuring streamlined payment gateway, is now operational, setting the stage for greater accessibility and engagement. While these advancements promise long-term benefits, we are optimistic about the enhanced operating environment that lies ahead for DMA.
